“Instruction Manual”

**⚠ WARNING: PHOTSENSITIVITY/EPILEPSY/SEIZURES**

A very small percentage of individuals may experience epileptic seizures or blackouts when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or when playing video games may trigger epileptic seizures or blackouts in these individuals. These conditions may trigger previously undetected epileptic symptoms or seizures in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition or has had seizures of any kind, consult your physician before playing. IMMEDIATELY DISCONTINUE use and consult your physician before resuming gameplay if you or your child experience any of the following health problems or symptoms:

- dizziness
- eye or muscle twitches
- disorientation
- any involuntary movement or convulsion.
- altered vision
- loss of awareness
- seizures

RESUME GAMEPLAY ONLY ON APPROVAL OF YOUR PHYSICIAN.

**Use and handling of video games to reduce the likelihood of a seizure**

- Use in a well-lit area and keep as far away as possible from the television screen.
- Avoid large screen televisions. Use the smallest television screen available.
- Avoid prolonged use of the PLAYSTATION®3 system. Take a 15-minute break during each hour of play.
- Avoid playing when you are tired or need sleep.

Stop using the system immediately if you experience any of the following symptoms: lightheadedness, nausea, or a sensation similar to motion sickness; discomfort or pain in the eyes, ears, hands, arms, or any other part of the body. If the condition persists, consult a doctor.

**NOTICE:**

Use caution when using the SIXAXIS™ wireless controller motion sensor function. When using the SIXAXIS™ wireless controller motion sensor function, be cautious of the following points. If the controller hits a person or object, this may cause accidental injury or damage. Before using, check that there is plenty of space around you. When using the controller, grip it firmly to make sure it cannot slip out of your hand. If using a controller that is connected to the PS3™ system with a USB cable, make sure there is enough space for the cable so that the cable will not hit a person or object. Also, take care to avoid pulling the cable out of the PS3™ system while using the controller.

**WARNING TO OWNERS OF PROJECTION TELEVISIONS:**

Do not connect your PLAYSTATION®3 system to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

**HANDLING YOUR PLAYSTATION®3 FORMAT DISC:**

- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

## Minigames

In some levels, you'll have to hack into different computer systems to continue on your mission.

These are virtual world minigames which the player is required to complete in order to progress. These minigames have their own HUD, pick ups, and weapon upgrades.

The pick-ups include health and energy, as well as weapon upgrades. Weapon upgrades include a bullet spreader, which splits the single fire into a triple fire shot, and a rapid fire upgrade which doubles the current fire rate. These upgrades can also be mixed to enhance the effect. For example, if you pick up a triple fire shot and then pick up a rapid fire shot, you are now upgraded with a rapid fire triple shot. There is also a "bomb" attack which is used by pressing the **R1 button** or **R2 button**. This attack destroys all enemies within a certain radius, but it also slows you down for a few seconds and consumes all of your energy.

Game varies in amount of floors required to complete the hack. Once all floors are cleared, the hack ends and you can resume control of Penny.
